No Investment Advice Provided

Cackle platform does not provide financial, investment, legal, tax, regulatory or any other kind of professional advice. Cackle Ltd is not a broker, financial advisor, investment advisor, portfolio manager or tax advisor.

Any opinions, chats, messages, news, research, analyses, prices, or other information contained on this website are provided as general market information for educational and entertainment purposes only, and do not constitute investment advice. This website should not be relied upon as a substitute for extensive independent market research before making your actual trading decisions. Opinions, market data, recommendations or any other content is subject to change at any time without notice. Cackle Ltd will not accept liability for any loss or damage, including without limitation any loss of profit, which may arise directly or indirectly from use of or reliance on such information.

We do not recommend the use of technical analysis as a sole means of trading decisions. We do not recommend making hurried trading decisions. You should always understand that PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS.

Investing and trading in financial markets poses significant risk as the markets and underlying technology can be unpredictable. Users should not use Cackle Platform unless they fully understand the risks involved. These include, but are not limited, to:

Volatility Risks

Whether the market, for one or more financial instruments, will move up or down, or whether a particular asset will lose all or a portion of its value, it is unknown and cannot be predicted. Participants should be cautious about holding some financial instruments such as cryptocurrency which means high volatility.

Unpredictability Risks

Past performance is no guarantee of future success. Please note that no system or methodology is capable of predicting whether a cryptocurrency or any other financial instrument will move up or down. No trading bot, strategy or system can guarantee profits or ensure freedom from losses. In using strategies on Cackle Platform, there is no implication that the user will make guaranteed profit or be protected from losses. Cackle simply provides information to help users make their own decisions.

Loss Risks

Cackle shall not be held responsible to the users for any economic losses, damages or claims of any kind (whether direct or indirect) suffered by the user arising from, or in connection with, the information obtained from strategies on the Cackle Platform, guides, videos, tutorials, software, or directly from the Cackle website.

Exchange and Broker Risks

For those financial instruments where trading, buying and selling is allowed, they are listed by independent brokers or exchanges which do not provide any financial or technical guarantees. Trading these financial instruments might present some difficulties and carry a significant risk of technical failures that can lead to the impossibility to acquire or sell, or even a complete loss of the cryptocurrencies. Brokers and Exchanges are independent of Cackle and Cackle Ltd shall not be held responsible for any of these difficulties.

Liquidity Risks

Financial markets have differing degrees of liquidity. There is never a guarantee that there will be an active market for one to sell, buy, or trade cryptocurrencies or other financial instruments. The purchases and sales are performed through brokers or exchanges independent of Cackle and therefore Cackle Ltd shall not be held responsible for troubles buying or selling cryptocurrencies.

Security Risks

Users should be wary of allowing third parties to hold their property for any reason. Having a deposit or with any third party in a custodial relationship has attendant risks. These risks include security breaches, risk of contractual breach, and risk of loss.

Legal Risks

Users are responsible for knowing and understanding how investing and trading financial instruments will be addressed, regulated, and taxed under applicable law in their country of residence.
